The names of the European colonies in America were generally expressive of ambition, youth and hope.  
The kingdoms of the old world, seemed resolved to establish still greater Kingdoms in the New.  
The Spaniards have founded a new Spain (Mexico and Florida)  
The French - a new France (Canada)  
The Dutch or Netherlander - a New Netherland.  
In 1638 the Swedes, by like feeling, undertook to begin a New Sweden.  
In the year 1638, the colony of the Swedes, landed on the west Bank of the Delaware  
and now known as Wilmington.  
In 1654 the Dutch claimed the land - and in 1665 the English Duke of York seized the land - and in 1681  
sold the land to Wm Penn. who called the three colonies, the lower colonies of the Delaware.  
Those of the Swedes - who would not swear fidelity to the Dutch Government were sent home.  
The population, at this time (1703) were mostly - English, Quakers and Welsh.

The Swedes had settled on both sides of the Delaware River, between Philadelphia -  
from 1637, they and some Dutch Navigators contended for rights  
acquired by discovery of preemption.

## Additions

To Chart- Compiled March 1952

A Genealogical Table- and History of the Springer Family, in Europe and North America - Vol. I. Springer Family- 1927 by M.C. Springer From Earliest German Princes and Origin of the Name, to Charles Christopher Springer <sup>Sr</sup> 1658 to 1738 inclusive

In his earliest life his name was Carl and in his later years assumed the name Christopher 1658-1738 and Charles Christopher Sr. 1658-1738 are one and the same person. It should be born in mind that previous to the Norman Conquest, in 1066, with few exceptions no man had more than one name. Soon after that period surnames began to be used amongst the common people until say as late as 1300

In 1913.

E.L. Scribner, Genealogist Secretary of the Springer Family issued a 8 page folder, treating of the Springer Family Springer Genealogy.

The Springer Genealogical Family Tree

Probably a forerunner of the coming of Volume 1-1927

This folder was brought to light less than 2 months since the making and distribution of the March Chart-1952

The ancestry of Lorentz began with Chart #1. Vol. I. page 106 and continued thru to the end of Chart 2- Vol. I- page-116 Lorentz descendants are on Chart of March-1952.

When second wife died- #39 Christopher Stringer, removed to Stockholm, Sweden where in 1654 he was married to Lady Beata Jacobine Henderson, who became Lady Companion to the Queen of Charles X, he died at Stockholm in 1669 at age of 77 years.

(C) Charles Christopher, Sr. born Stockholm Sweden 1658 d. in Wilmington, Delaware U.S.A. 1738 about the year 1681 he emigrated to America, about the same time, his half brother (40) Lorentz 1646 emigrated to America. From these two are all of the celebrated Springer Descendants of U.S. America and Canada.

When Vol. I. was issued it was thought that Vol. 2. would soon be printed, probably M.C. Springer would be listed in this Section. From then until to now it is not known that volume 2 has ever been published.

When seen in America, because he came from Stockholm, Sweden, he was thought to be a Swede. Lorentz was German and went with his father to Stockholm.
